

POMPEII

On the 24 August AD79 there were explosions in Pompeii. The frightening massive eruption. Ash and lava shot up.

It was a fascinating day in Pompeii the people were living their normal time. The people were just going to the market. They didn't know what was going on. They thought that it was an earthquake.

The Volcano started at 2 00am. The people felt shaking but they just carried on. The second time it happened the people started to go Herculaneum screaming. Mount Vesuvius erupted.

The people of Pompeii were running to safety because Mount Vesuvius. was going to erupt and cover them. People were going escape from Mount Vesuvius eruption.

Lava came running down the volcano. The people were carried to

a second from Pompeii. Mount Vesuvius devastating effect they could not escape. Children were screaming. People were getting court but they was a city call Herculaneum they on that mount Vesuvius was going to escape so that they had the same amount time to escape.

The darkness a rose because the eruption. People were so sad that they are not any moor. The darkness of the sun.

The Vesuvius stop 2 days later. Ever body was found untouched. Because Pompeii was buried because of Vesuvius Pompeii.
